Global Insurance and
Employee Benefits solutions

Global Insurance and Employee Benefits solutions

Protecting your people and assets overseas can be a daunting and time consuming prospect.

Our experienced Multinational team can help you to create a clear, compliant global insurance programme that recognises local law, insurance regulation and culture whilst respecting your corporate and commercial objectives.

At the same time, we can resolve your local employee benefits challenges, whether for expatriates or local nationals.

We have extensive experience of helping businesses, from smaller corporates to companies with an international presence, to manage their risk and insurance programmes.

We advise businesses in all sectors, but have particular expertise in **Manufacturing, Manpower, Technology, Life Sciences and Medical, Logistics and Hospitality,**

As founding members of the Worldwide Broker Network, we can help you:

- Co-ordinate and control your worldwide insurance and local benefits programmes from the UK
- Create a single global client service plan
- Connect your overseas staff to our local partners to give them 'on the ground' support
- Ensure your programme is consistent with your corporate standard and satisfies internal and external governance requirements

For further information or to arrange a review of your current insurance arrangements please contact:
