Insurance solutions for businesses

At Finch we take a fresh approach to client relationships because we believe that protecting your business assets, profits and livelihoods is about more than just buying lots of insurance.

We take the time to really get to know you and your business so that we understand the key risks you face and can devise the right solution for you. For most clients this will be a combination of practical risk management support, backed up by a robust insurance programme.

We have extensive experience of helping businesses, from smaller corporates to companies with an international presence, to manage their risk and insurance programmes.

We advise businesses in all sectors, but have particular expertise in

Hospitality, Manufacturing, Retail, Technology and Logistics

As members of the powerful UNA Alliance and Worldwide Broker Network, we are often able to offer our clients solutions and premiums not available elsewhere.

At Finch we offer three simple promises:

- We will take the time to understand your business, the risks you face and the importance you place on each of them.
- We will deliver outstanding levels of service and technical excellence with clear and transparent advice.
- If you suffer a loss, we will support you through the process to ensure you receive a timely and fair claims settlement.

Employee Benefits designed for you and your employees

We also provide affordable and sustainable employee benefits arrangements to help you attract, retain and reward the high calibre employees who are so vital to the success of your business.
